10 free printables with answer keys — Kindergarten through Grade 5.

Print, hand over, check together. Want more? Make unlimited fresh sheets at worksheet-ai-l1td.vercel.app — the first 2 math sheets each day are free.

Counting to 10 Worksheet

Fill in the missing number or solve the problem.

Name: _____

Date: _____

Score: _____

1 $5 + 2 = \underline{\quad}$

2 $9 - 3 = \underline{\quad}$

3 What number comes after 6? $\underline{\quad}$

4 What number comes before 2? $\underline{\quad}$

5 Count the missing numbers: 3, $\underline{\quad}$, $\underline{\quad}$, 6.

6 Sam has 4 apples. He gets 2 more. How many apples does he have now? $\underline{\quad}$

7 Lily has 9 stickers. She gives 3 to her friend. How many stickers does she have left? $\underline{\quad}$

8 How many circles are shown? $\underline{\quad}$

Answer Key

1. 7 (5 plus 2 equals 7)
2. 6 (9 minus 3 equals 6)
3. 7 (the number after 6 is 7)
4. 1 (the number before 2 is 1)
5. 4, 5 (the sequence counts up: 3, 4, 5, 6)
6. 6 (4 apples + 2 more = 6 apples)
7. 6 (9 stickers – 3 given away = 6 stickers)
8. 7 (the ten-frame visual shows seven circles)

Addition within 20 Worksheet

Solve each problem.

Name: _____

Date: _____

Score: _____

1 $8 + 5 = \underline{\quad}$

2 $13 + 4 = \underline{\quad}$

3 $7 + 9 = \underline{\quad}$

4 $12 + 6 = \underline{\quad}$

5 $15 + 3 = \underline{\quad}$

6 Lily has 9 stickers. She gets 5 more stickers from a friend. How many stickers does she have now?

7 A basket contains 6 apples. Mom adds 7 more apples. How many apples are in the basket?

8 Fill the ten-frame. How many more dots are needed to complete the ten-frame?

Answer Key

1. 13 ($8 + 5 = 13$)
2. 17 ($13 + 4 = 17$)
3. 16 ($7 + 9 = 16$)
4. 18 ($12 + 6 = 18$)
5. 18 ($15 + 3 = 18$)
6. 14 ($9 + 5 = 14$)
7. 13 ($6 + 7 = 13$)
8. 2 (Ten-frame has 8 dots; $10 - 8 = 2$ more needed)

Place Value and Addition/Subtraction Worksheet

Solve each problem. Show your work when needed.

Name: _____

Date: _____

Score: _____

1 $345 + 279 =$

2 $562 - 317 =$

3 In the number 874, what is the value of the digit 7?

4 How many hundreds are in the number 642?

5 Fill in the blank: $460 + \underline{\quad} = 500$

6 Sam has 248 marbles. He finds 79 more marbles on the playground. How many marbles does Sam have now?

7 Lily has \$3 and finds \$4 more in her piggy bank. How much money does she have now?

8 Solve.

Answer Key

1. 624. Add the ones ($5+9=14$, write 4 carry 1), tens ($4+7+1=12$, write 2 carry 1), hundreds ($3+2+1=6$).
2. 245. Subtract ones ($2-7$ cannot, borrow $\rightarrow 12-7=5$), tens ($5-1=4$), hundreds ($5-3=2$).
3. 70. The digit 7 is in the tens place, so its value is $7 \times 10 = 70$.
4. 600. The hundreds place shows 6, which means $6 \times 100 = 600$.
5. 40. Because $460 + 40 = 500$.
6. 327. Add $248 + 79$: ones $8+9=17$ (write 7, carry 1), tens $4+7+1=12$ (write 2, carry 1), hundreds $2+0+1=3$.
7. \$7. $\$3 + \$4 = \$7$.
8. 418. (Assuming 704-286; question omitted)

Multiplication Facts Worksheet

Answer each question.

Name: _____

Date: _____

Score: _____

1 Compute $8 \times 7 =$ ____

2 Compute $9 \times 6 =$ ____

3 Compute $5 \times 8 =$ ____

4 Compute $10 \times 3 =$ ____

5 Compute $7 \times 4 =$ ____

6 There are 9 apples in each of 4 baskets. How many apples are there? ($9 \times 4 =$ ____)

7 A classroom has 5 rows of 6 chairs. How many chairs are there? ($5 \times 6 =$ ____)

8 Look at the ten-frame below. How many squares are shaded?

Answer Key

1. 56 – 8 multiplied by 7 equals 56.
2. 54 – 9 multiplied by 6 equals 54.
3. 40 – 5 multiplied by 8 equals 40.
4. 30 –

Long Division Practice

Solve each problem. Show your work if needed.

Name: _____

Date: _____

Score: _____

1 Solve: $3,482 \div 4 =$ _____

2 Solve: $5,617 \div 3 =$ _____

3 Solve: $8,204 \div 5 =$ _____

4 Solve: $9,306 \div 6 =$ _____

5 Solve: $7,215 \div 7 =$ _____

6 A baker has 2,436 cookies and packs them into boxes of 8. How many full boxes can he make and how many cookies will be left over? _____ boxes, _____ cookies left over

7 A school has 3,528 pencils to distribute equally among 9 classrooms. How many pencils does each classroom get and how many are left over? _____ pencils per classroom, _____ left over

8 What is the value of the digit 5 in the number 4,506?

Answer Key

1. 870 remainder 2 because $4 \times 870 = 3,480$ and $3,482 - 3,480 = 2$.
2. 1,872 remainder 1 because $3 \times 1,872 = 5,616$ and $5,617 - 5,616 = 1$.
3. 1,640 remainder 4 because $5 \times 1,640 = 8,200$ and $8,204 - 8,200 = 4$.
4. 1,551 remainder 0 because $6 \times 1,551 = 9,306$ and $9,306 - 9,306 = 0$.
5. 1,030 remainder 5 because $7 \times 1,030 = 7,210$ and $7,215 - 7,210 = 5$.
6. 304 boxes, 4 cookies left over because $8 \times 304 = 2,432$ and $2,436 - 2,432 = 4$.
7. 392 pencils per classroom, 0 left over because $9 \times 392 = 3,528$ and $3,528 - 3,528 = 0$.
8. 500 because the digit 5 is in the hundreds place ($5 \times 100 = 500$).

A Day at the Park

Read the passage. Then answer the questions in complete sentences.

Name: _____

Date: _____

Score: _____

Maya went to Oakwood Park with her family on a sunny Saturday. She packed a bright red kite, a blue blanket, and a small lunch. When they arrived, Maya ran to the open field and asked her brother, Leo, to help her launch the kite. The wind lifted the kite high, and it fluttered like a bird. Soon the wind grew stronger, and the kite swooped and danced across the sky. After the kite flew, Maya and her friends spread the blanket under a shady oak tree. They ate sandwiches, shared fruit, and listened to birds singing. As the sun set, Maya smiled, feeling proud of her flying kite.

- 1 What did Maya bring to the park?

- 2 Who helped Maya launch the kite?

- 3 What color was the kite?

- 4 What happened when the wind got stronger?

- 5 Where did Maya and her friends sit after playing?

- 6 What is the main idea of the passage?

- 7 Why did Maya feel happy at the end of the day?

- 8 How do you know that the park was a good place for a picnic?

Answer Key

1. Maya brought a bright red kite, a blue blanket, and a small lunch. (The passage lists these items.)
2. Her brother Leo helped her. (The text says “Maya ... asked her brother, Leo, to help her launch the kite.”)
3. The kite was red. (It is described as a “bright red kite.”)
4. The kite swooped and danced across the sky. (The passage states “the kite swooped and danced across the sky.”)
5. They spread the blanket under a shady oak tree. (The passage notes they “spread the blanket under a shady oak tree.”)
6. The main idea is that Maya went to the park, flew a kite, ate a picnic, and felt proud.
7. Maya felt happy because she was proud of flying her kite and the day ended with a smile. (The passage ends with “Maya smiled, feeling proud of her flying kite.”)
8. Because they ate sandwiches, shared fruit, and listened to birds singing while sitting on a blanket.

Grammar: Nouns and Verbs

Circle the nouns. Underline the verbs.

Name: _____

Date: _____

Score: _____

1 The dog chased the ball.

2 Sarah and her brother played soccer after school.

3 A bright yellow sun shines in the sky.

4 The teacher reads a funny story.

5 My cat naps on the warm windowsill.

6 Cars honk loudly during rush hour.

7 The baker baked fresh bread for the market.

8 Children laugh while they eat ice cream.

Answer Key

1. Nouns: dog, ball; Verb: chased (nouns are people, places, things; verbs show action).
2. Nouns: Sarah, brother, soccer, school; Verbs: played (identify the person/thing doing the action).
3. Nouns: sun, sky; Verb: shines (sun is a thing, shines is the action).
4. Nouns: teacher, story; Verb: reads (teacher does the reading).
5. Nouns: cat, windowsill; Verb: naps (cat performs the action).
6. Nouns: Cars, rush hour; Verb: honk
7. Nouns: baker, bread, market; Verb: baked (baker performed the action).
8. Nouns: Children, ice cream; Verbs: laugh, eat (children do both actions).

Spelling: short-a CVC

Read the words. Then complete the activities below.

Name: _____

Date: _____

Score: _____

cat

bat

hat

mat

pat

sat

fat

rat

tap

sap

A. Write each word two times. B. Fill in the missing letters. C. Use two words in a sentence.

1 c _ t

2 b _ t

3 h _ t

4 m _ t

5 p _ t

6 s _ t

7 f _ t

8 r _ t

9 t _ p

10 s _ p

11 Write a sentence using "cat".

12 Write a sentence using "bat".

Answer Key

1. cat (Short a sound like in "cat")
2. bat (Short a sound like in "bat")
3. hat (Short a sound like in "hat")
4. mat (Short a sound like in "mat")
5. pat (Short a sound like in "pat")
6. sat (Short a sound like in "sat")
7. fat (Short a sound like in "fat")
8. rat (Short a sound like in "rat")
9. tap (Short a sound like in "tap")
10. sap (Short a sound like in "sap")
11. Example: "The cat sat on the mat." (Shows the word in a sentence.)
12. Example: "The bat sat on the mat."

The Water Cycle in Action

Read the text. Then answer the questions.

Name: _____

Date: _____

Score: _____

Water moves around Earth in a cycle called the water cycle. First, the sun heats water in oceans, lakes, and rivers, and some of that water turns into invisible vapor in a process called evaporation. The vapor rises, cools, and joins other droplets to form clouds—a process called condensation. When the clouds get heavy, water falls back to Earth as rain, snow, or sleet; this is precipitation. Some of that water seeps into the ground (infiltration), flows along the surface (runoff), or returns to the ocean through streams and rivers. The cycle keeps the planet's water fresh and balanced.

- 1 What is the first step in the water cycle?

- 2 Why does evaporation happen?

- 3 What happens to water vapor when it cools?

- 4 Why do clouds form from cooling vapor?

- 5 What is the process by which water falls from clouds?

- 6 Why does precipitation occur?

- 7 What is infiltration?

- 8 Why is infiltration important for the water cycle?

Answer Key

1. Evaporation.
2. The sun heats the water, so some of it turns into vapor.
3. The vapor cools and joins other droplets to form clouds.
4. When vapor cools, it joins other droplets and makes clouds.
5. Precipitation.
6. When clouds get heavy, water falls back to Earth.
7. Water seeps into the ground.
8. It moves water into the ground and lets it return to the ocean, keeping the cycle balanced.

Writing Prompt

Plan your ideas, then write your response on the lines below.

Name: _____

Date: _____

Score: _____

Do you think our school should have a longer recess? Write your opinion for the principal, giving reasons to support your idea.

Plan: What is your main idea? What are 2–3 details or reasons?

[illegible]

✓ Capital letters ✓ Punctuation ✓ Complete sentences ✓ Clear main idea
